

STRUCK BY TRAIN, FELL OFF BRIDGE

A Night Watchman Tumbles
Twenty-four Feet.

Although Terribly Bruised, No Bones
Were Broken and He Will
Recover.

J. H. MORPHEW'S EXPERIENCE

J. H. Morpew, 12 years old, night watchman at the new Maxon Mill steel bridge, under course of construction, was struck by an Illinois Central freight train last night shortly after 10 o'clock and hurled from the bridge. He fell a distance of 24 feet, and was seriously injured. He was cared for by physicians at Maxon Mills until this morning, when he was brought to Paducah and placed in the Illinois Central hospital.

Morpew came from Mississippi and has been watching the bridge since work began. Last night he was standing on the bridge when freight train, No. 857, in charge of Engineer John Bean and Conductor P. M. Hill, appeared. He was unable to reach the end of the structure, and was struck.

He alighted on his left side and his shoulder and side were bruised. His right leg, where it was struck by the engine pilot, was badly bruised. He is thought not to have been internally injured.

Callaway County Warehouse.

Murray, Aug. 27. (Special).—All stock in the new tobacco warehouse for the planters' protective association has been subscribed and it is announced that work will begin at once. It is presumed that the warehouse will be ready for this year's tobacco crop if possible. Since the money has been raised for the warehouse the farmers are encouraged. The building will be a substantial structure and will add to Murray's commercial interests.

Col. Hendrick Speaks.

Murray, Aug. 27. (Special).—Colonel John K. Hendrick, of Paducah, Democratic candidate for attorney general, spoke to a large crowd here yesterday and tonight was attended at the speaking. Much favorable comment was heard on the manner in which Colonel Hendrick complimented Judge Brethart, Republican candidate for attorney general. Colonel Hendrick left here for Paducah, where he will remain until Saturday and then leave for Lawrence and Lewis counties. In the extreme eastern part of the state. He is prepared for a strenuous campaign and will be out after Saturday until the campaign is over.

Mrs. Den Dancy.

Woodville, Aug. 27. (Special).—Mrs. Den Dancy, a popular young matron of this place, died this morning at her home of typhoid fever after a several weeks' illness. Her husband and an infant daughter survive her. She was 25 years old and was born and reared near Glasgow. The funeral and burial took place this afternoon at Woodville.

Charles Crawford's Funeral.

Grahamville, Aug. 27. (Special).—The funeral of the late Charles Crawford was held this morning and the burial took place in the family burial grounds in Grahamville. The Rev. A. M. McFie led the services.

Tobacco Barn Burned.

Prestonsville, Ky., Aug. 27. (Special).—Henry Crouch's tobacco barn near here, was burned today with 150 hogsheads of American Equity tobacco and a large quantity of leaf tobacco. The loss is estimated at \$150,000.

Bomb Invasion of Persia.

Constantinople, Aug. 27. (Special).—The government is dispatching a special commission of officials of high rank to the Turkish-Persian frontier to open an inquiry on the recent invasion by Turks of Persian territory, and the bloodshed and destruction of property that followed. The reports threaten to assume a grave character, especially as the Persian residents of the district are being persecuted by Turkey's Kurdish auxiliaries.

Lake Hopkocan, N. J., Aug. 27.

The body of Miss Agnes Maguire, the Brooklyn school teacher, who disappeared mysteriously Saturday night, was found dead in Lake Hopkocan.

WEATHER FORECAST.

FAIR

Fair tonight and Wednesday. The highest temperature yesterday was 90; lowest today, 67.

PORTUGAL.

Lisbon, Aug. 27. (Special).—Another plot by Republicans this time directed against the life of the crown prince, is declared, has been discovered, by the police finding a bomb factory in the Trans-Sagras section of the city. Great quantities of explosives and several bombs were seized in a raid on the factory.

HOLLAND BANK.

New York, Aug. 27. (Special).—Private cable advices to the International Bankers here, state that the Aachensche bank of Amsterdam, Holland, has failed.

CHICAGO CRIME.

Chicago, Aug. 27. (Special).—Mysterious murders and robberies continue. This morning the body of an unidentified man was found in the rear of a station of the fire department with his throat cut and every indication of robbery.

THE PLAGUE.

Washington, Aug. 27. (Special).—Additional officers have been ordered to San Francisco by the marine hospital and public health service to combat the spread of the plague. Since the discovery of four cases, two weeks ago, a sailor died at the marine hospital from disease and at least two more cases have developed.

TOLEDO.

Wheeling, W. Va., Aug. 27. (Special).—A tornado struck the towns of Woodfield and Newcastle, O., wrecking a number of buildings and doing other damage. The house of Samuel Barrens, near Woodfield, was entirely destroyed and a two-year-old child killed. The child was born from its mother's arms and carried nearly a quarter of a mile.

ASPHALT CASE.

Cincinnati, Aug. 27. (Special).—Three years after the beginning of the sensational trial of the New York and Hernandez Asphalt company for complicity in the Matus revolution, judgment was rendered against the defendant company, it being condemned not only to pay five million dollars damages, the calculated cost to government of subsidizing the revolution, but also to pay other sums to be fixed by commission experts and which may very likely amount to ten million dollars more.

Yale Chapter House Burns.

New Haven, Conn., Aug. 27. (Special).—A Yale Shield senior society chapter house, which was just completed and would have been occupied for the first time this fall, was destroyed by fire about 4 o'clock this morning. The building cost \$40,000. Last June at commencement there was a graduate reunion in the building the first Yale event ever held there.

Nelson Morris Dead.

Chicago, Ill., Aug. 27. (Special).—Nelson Morris, the millionaire packer, head of the firm of N. S. Morris & Company, died at his home this afternoon after a lingering illness from heart disease. Morris was one of the remaining members of the old guard, to whose efforts Chicago owes her supremacy in the packing industry. His estate is estimated at 25 millions.

Legislator Killed.

Springfield, Ill., Aug. 27. (Special).—John T. Lyman, former member of the state legislature, was struck by lightning and killed, while covering a hay stack at his home, Farmington, during the storm today.

COMPROMISE FOR LOWER BROADWAY

Fifteen Minute Schedule and
Cars to Third Street.

Traction Company Will Extend De-
pot Line To Reach Heart of
the City.

CHANGES IN ROWLANDTOWN.

Beginning Thursday, a change of schedule will be made for the Rowlandtown and Union Station cars. For some time merchants on lower Broadway and the two hotels have appealed to the traction company to run the Union Station car to the river, but this has been found impracticable. As a compromise the Paducah Traction company will run the car to Third street and a car will leave Third street and Broadway every 15 minutes, instead of every 12 minutes as at Fourth street and Broadway.

The Union Station line is too long, when stops are frequent, for the 12 minute schedule, and with a car every 15 minutes, the street car will have several minutes to wait at the Union Station for the trains, which will be a convenience to patrons. A car will leave Third street and Broadway and one at Union Station at 6 o'clock in the morning and continue a car every 15 minutes until 9:30 o'clock when the schedule is changed to 30 minutes. The instructions were given to J. W. McNeely, superintendent today.

Another change in schedule was made in the Rowlandtown line. A car will leave Fourth street and Broadway and a car leave Rowlandtown at 6 o'clock in the morning instead of 6:05 o'clock and the line will have a 15 minute schedule. The loop service will not be affected in any way, and the running of the Union station car to Third street will be a convenience to patrons.

SAVE YEAR'S TIME BY EIGHT MILLION

Washington, Aug. 27. (Special).—The president has approved Col. Goethal's request to continue expenditures \$8,000,000 in excess of the pro rata allowed for construction of the Panama canal for the present fiscal year on account of "present necessities and unforeseen developments since the estimates were submitted." Congress will be requested to make an appropriation to cover this deficiency. Col. Goethal said it might save a year's time in completing the canal.

SOME VANDAL CUT HARNESS OFF DEWEY

Coroner Eaker Thrown From
Vehicle When His Favorite
Horse Ran Away.

Coroner Frank Eaker was bruised about the body and his buggy was partly demolished when his horse "Dewey" ran away this morning on Seventeenth street near Clay street. The cause of the accident was an act of some unprincipled person who cut harness, while the horse was standing. "Dewey" ordinarily is a docile animal, but when anything goes wrong with harness, even to the mere twisting of a strap, he knows it and speaks his disapproval with a series of lightning like leaps. Coroner Eaker was thrown from the buggy and alighted in such a way as to bruise his shoulders and wrench his legs.

Wanted No Physician.

London, Aug. 27. (Special).—The Earl of Dunmore, one of the most prominent advocates of Christian Science in England, died suddenly today. Medical attention was offered the earl, but he died without allowing a physician to see him.

Bandit Now a Hotel Clerk.

Topeka, Kan., Aug. 27. (Special).—Dalton, the Coffeeville bandit, who is out of the state penitentiary on parole, has secured a position. He will be night clerk for the Copeland hotel.

Women and Children Fight Out Question of Roller Skating on Sidewalks Before City Council

Street Committee Agrees on
Ordinance Prohibiting Skat-
ing, But the Children and
Their Champions Promise
to Exert Some Influence on
General Council.

ONE COUNCILMAN STUNG

Hitherto the claims of the children to the privilege of skating on the sidewalks in the open air, declared by physicians to be the most healthful of exercises for city children, has triumphed over all opposition in the general council, but south side citizens, aroused to a height of indignation by condition prevalent there, which do not obtain elsewhere, sent their women to the front last night, and the street committee succumbed to the most vigorous and effective onslaught the members had ever before experienced in their councilmanic careers. The committee agreed to order an ordinance, prohibiting skating on the sidewalks altogether. But their troubles are not yet ended, for the youngsters and their champions promise to exert an influence on the general council, and the committee on streets, is not the whole body by any manner of means.

ON INTERURBANS WILSON WILL SPEAK.

Has Stated That He Will At-
tend Big Convention Here
Next Month.

Mr. Charles N. Wilson, president of the American Engineering company, of Indianapolis, Ind., will be present at the Immigration convention and address the delegates and citizens on the subject of interurban lines, the value of same in developing the commercial interests of the community, and especially the importance and value of interurban lines to Paducah.

Mr. Wilson is now in touch with the gentlemen promoting prospective interurban lines out of Paducah, and it is believed that he will have a great deal to do with the future development and commercial progress of Paducah and western Kentucky.

He stands at the head of his profession in this country and abroad. His company has built a large number of interurban lines out of Indianapolis and throughout these central and western states.

The people who attend the convention will have the question of the value of interurban lines explained by Mr. Wilson in a manner that will make the subject clear.

FLIPFLAPPING.

LABOR DAY PLANS PARTIALLY READY

Goddess of Labor Contest Op-
enstomorrow Night-Grand
Marshal Named.

Further arrangements for the big Labor Day celebration Monday, September 2, were completed last night at a meeting of the committee. Tomorrow night was fixed as the date for closing entries for the Goddess of Labor contest.

Frank Baldrige, the well known union painter, was elected grand marshal. All plans for the big parade were left in his hands. Mr. Baldrige is to select his deputies and designate a line of march and place the different trades unions.

This year no favors from any persons will be asked by the committee and all prizes offered in the contests will be paid for by the unions. They will not be expensive prizes, but of enough value to attract many entries. Among the events will be a running race, swimming race and jumping contest, in each class being offered as a prize. There will also be a prize given to the man with the largest family on the grounds. A 50 pound sack of flour is the prize. Other events will be arranged and a program printed.

A LITTLE POLITICS COMING TO SURFACE

Attorney W. A. Berry, chairman of the city Democratic committee, will call a meeting of the committee within the next two weeks to choose a candidate for school trustee for the Second ward. Ashley Robertson resigned on account of ill health and the vacancy was filled by the selection of Colonel J. E. Potter until the next election.

Attorney J. S. Ross, of the firm of Criss & Ross, is being urged to make the race for Democratic nomination for commonwealth's attorney. Attorney Ross will make no statement concerning the matter. Friends of County Attorney Alben Barkley urge his candidacy.

THIEVES MAKE HAUL IN BOARDING CAR

Thieves broke into a boarding car in the Paducah Illinois Central south yards last night and stole \$32.35 in cash and an \$85 gold watch. The police are working on the case.

Real Raffles Captured.

Chicago, Ill., Aug. 27. (Special).—William Schroeder, for many years prominent in church and social life in aristocratic Lakeview, was arrested today and confessed to robbing forty or more residences within the last few weeks. Diamonds, watches and other valuables to the value of thousands of dollars were found in his home and he admits having thrown away many diamonds and other valuables because he feared to dispose of them.

THREE FIRES IN ONE NIGHT

Keep Laddies Up From Mid-
night Until After Day-
break.

CARTRIDGES ARE EXPLODED

Two Hardware Stores, Two
Cottages, Church and Saw
Mill Badly Burned.

NEARLY SIXTY THOUSAND

LOSS OF A NIGHT.	
Scott Hardware Co.	\$30,000
Henneberger & Co.	20,000
Building, 422 B'way.	3,500
Col. Baptist Church.	1,000
Two Cottages.	1,000
Contents.	500
Fooks-Acree Mill.	250
Total.	\$56,250

Both hardware companies, the owner of the Broadway building, the owners of the cottages are fully protected by insurance. The church was partially insured, while the Fooks-Acree loss is total.

While firemen were fighting a blaze at 422 Broadway after midnight, which for a time threatened destruction to the whole business section, and stubbornly resisted all efforts to extinguish it, an alarm called two companies to Twelfth and Harrison streets, where a colored church and two residences were burning. Before this was over the Fooks-Acree mill, three miles out on the Pool road, was destroyed.

Three fires in one night, kept the entire fire department heroically at work from midnight until after day-break this morning, and caused damage amounting to \$56,250.

Fire entailing a loss of \$50,000 visited the building at 422 Broadway, occupied jointly by the Scott Hardware company, wholesale, and the I. W. Henneberger Hardware company, retail, this morning between 12 and 1 o'clock. The origin of the fire could not be determined. The excellent work of the firemen prevented its spread to other buildings. It was an exhibition of fire fighting eliciting commendations from all, especially from sufferers from the fire.

Alarmed Palmer House.

Four drummers rushed madly into the Palmer House at 12:30 o'clock crying "fire." Night Clerk Lawrence Rasor was in the act of spreading an alarm throughout the building when another person rushed in and announced that the fire was not in the hotel but across the street. Quickly an alarm was phoned to No. 7 station and switched to all stations. Companies No. 1 and 4 first responded. Fire was smoldering in the fourth floor.

The first two floors are occupied by the retail firm of I. W. Henneberger company, and the two upper floors by the Scott Hardware company. The aerial ladder was brought into play, but became fouled in the wires. Electric Inspector McPherson cut electric wires, and the city was thrown into darkness to enable the firemen to fight without danger of electrocution.

The Second Fire.

Chief Wood, seeing that water pressure was inadequate, ordered out No. 2 fire engine. Later he called the No. 1 and 2 fire companies, but on arrival at the scene, a second alarm came from Twelfth and Harrison streets. The First Ward colored Baptist church was afire. Captain Jack Slaughter's No. 3 company was sent to the scene. The church a small frame, had burned to the ground on arrival, and two small houses were afire all over. A stream of water was successfully played on a third house, which was saved, excepting a portion of the roof.

Returning to the scene of the Broadway fire, the Nos. 2 and 3 companies found the entire fourth floor was a seething mass of flames. From a plug at Fourth street and Broadway the steamer was pumping

COMMON HOTBED

FURNISHES PRINCIPLE ON WHICH POWER IS EXTRACTED

Inventor of Concrete File For Skyscrapers Has Plan For Working the Sun.

Philadelphia, Pa., Aug. 27.—By using the principle of a common hotbed by which farmers grow vegetables in the dead of winter, Frank Shuman, engineer, and on a list, thinks he has solved the old problem of converting the heat of the sun into power at such a low cost that its commercial use is possible.

He has now running an engine that gets its power from the sun and it is so simple that a child can operate it. Shuman, who is the inventor of the concrete file used in all skyscrapers and the wire glass, says his machine will revolutionize the motive power of the world.

On the Shuman property in Tanany there is what looks like a big hotbed, 18x60 feet. It is simply a big wooden box sunk into the ground and covered with a double top of ordinary hot-house glass, with a one-inch air space between the layers.

Instead of being filled with vegetables, however, it is filled with coiled drop pipes. These pipes, which are filled with ether, connect with a small upright engine hard by.

Sun Does Work of Fuel.

The circuit is known as a "closed one," that is, the ether in the pipe is converted to vapor in the big box, passes through the engine, developing three and a half horse power, thence into a condenser, and back again to the hot box.

No fuel is used, the heat of the sun being relied upon to convert the liquid into vapor. In the drop, water could take the place of ether, Shuman says.

End of Mr. Jackson's Honeymoon.

Mrs. Jackson—Bastard, didn't you like to be survived as he did? Mr. Jackson—Sittin' here, love, sittin' here. Mrs. Jackson—Waal, den, yo' bettah git yo' life insured tomorrow.

Clompton Lady Shaver.

The champion "lady shaver" of the world, as she was known in London, is dead. Miss Nellie Wlek was only 21 years old, but as she had been a barber since she was 1 year old she had done almost a lifetime's work. Her father was known as the "lightning barber," and taught his daughter the art of shaving almost as soon as her fingers were long enough to twine around the handle of a razor. Her record performance was the shaving of twenty-one men in as many minutes.—Chicago Daily News.

It's awfully hard to be grateful for a gift that doesn't please us.

Men who have no money to burn are apt to think it a burning shame.

THE WRONG DIAGNOSIS.

Prompt the Use of Worthless Remedies.

Even an experienced physician will sometimes make a mistake in diagnosis, in which event his entire treatment is wasted and may even be injurious to the patient.

The advocates of all other hair restoratives save Herpicide have wrongfully diagnosed the cause of Dandruff and Falling Hair.

They figure on a functional disease whereas it is now known and generally accepted that hair loss is due to a parasite germ which Newbro's Herpicide destroys.

There is no substitute for Herpicide, except none.

Sold by leading druggists. Two sizes: 50c and \$1.00. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich. W. B. McPherson, Special Agent.

Our National Appetite.

Washington, Aug. 27.—Starting evidence of the growing appetite of the American public for whisky and beer, tobacco, cigars, cigarettes and even snuff, is presented in the statement of the internal revenue bureau for the fiscal year that closed June 30. Prohibition and reform movements, to say nothing of New Year's resolutions, seem to be falling of their purpose. The country year by year drinks more liquor and smokes more tobacco.

Worse still, much of the smoking consists in the consumption of the cigarette. The fiscal year just closed has broken all previous records in the amount of liquor and tobacco consumed. Besides, the public is using more oleomargarine, renovated butter, process butter, food cheese and other "unlabeled" stuffs.

The receipts of the internal revenue for the fiscal year that closed June 30 amounted to \$269,664,022, against \$219,102,738 for the preceding fiscal year. Large increases are shown in receipts for liquors, spirits, tobacco, fermented liquors, oleomargarine, adulterated butter and renovated butter.

But more impressive is the showing when it is considered what quantities of these various products were manufactured. Beer drinking has increased enormously. The amount of beer withdrawn for consumption, on which revenue was paid, was 58,516,111 barrels, or 3,891,174 barrels more than in the preceding fiscal year. Exported in gallons, this is an increase of 116,833,220 gallons. It appears the country has consumed the enormous total of 1,811,929,413 gallons of beer in the last fiscal year. If the country has a population of 30,000,000 this means that in the twelve months ending June 30 there was drunk in the United States an average of more than twenty gallons of beer to every man, woman and child. This seems a high average, but the internal revenue officials say it was a poor year for beer drinking, the cold, wet spring driving folks to strong drink and hurting the beer trade.

The consumption of whisky in the fiscal year ending June 30 was 131,142,074 gallons, or an increase of 11,499,252 gallons over the preceding fiscal year. There was an increase also in spirits made from apples and other fruits, the consumption being 1,992,688 gallons, against

and smoked 369,186,303 pounds of tobacco, an increase of 14,270,804 pounds.

In cigarettes the consumption increased heavily, the entire number smoked in the fiscal year ending June 30 being so high that it is small wonder the tobacco trust has thrived. It amounted to 5,151,862,130, an increase of 1,368,595,917. As to snuff, there was an increased consumption of 693,658 pounds.

Oleomargarine shows increased consumption of 15,842,191 pounds, the total consumption being 68,958,850 pounds, and there were marked increases in the consumption of renovated butter, process butter and adulterated butter.

Old Jobs of Gravity.

"The effects of gravitation are so familiar as to demand only the briefest mention; yet most of us, perhaps, seldom stop to consider how far-reaching these effects are," says Dr. Henry Smith Williams. "But for gravitation, the winds would not blow, the waters would not descend and the mountains would not crumble into the valleys. Each particle of pulverized rock would remain where it was formed, and there would be no such thing as a mixed soil."

"But as matters are actually arranged, gravitation is perpetually active, and every particle of matter is being eternally tugged at and urged to get nearer to the earth's center. So no sooner does a fragment of rock at a mountain crest become loosened than gravitation hurls it crashing down into the valley, shattering it into fragments, perhaps, or at the least grinding off some portions of its surface, as well as of the surface of the rocks against which it is dashed."

By such means and with the further aid of its handmaiden wind and water, gravitation works its unceasing purpose of leveling the surface of the earth. In a few brief geological moments it rounds the shoulders of the loftiest mountain; and, given time enough, it will bring every particle of rock back to the sea bed whence it originally sprang. Short of that, as a transition stage, it is forever mixing the different soil constituents on the one hand and sorting them out again on the other."—Appleton's Magazine.

Georgia Watermelons.

Georgia has become a prohibition state. Score one for the watermelon. By its fruit ye shall know it.—New York Herald.

All men may be liars, but all men don't get found out by any means. People who take things easy, often end by taking less than their share.

MURDER PROGRAM

PREPARED BY ANARCHISTS IS EXTENDED ONE.

Drawing of Lots for Honor of Assassinating Victims Will Be Made.

Amsterdam, Aug. 27.—Every country of Europe has sent some of its most efficient secret police to Amsterdam to keep an eye on the anarchists who gather here this week for their international congress. Though all that concerns the congress has been kept a close secret enough has leaked out of the program to cause the various governments and the heads of state to sit up and take notice.

The promotion of anarchism among civilized nations is the announced purpose of the congress. Incidentally, it is said, the congress will hold a drawing to determine by lot who shall have the "honor" of assassinating those whose death has been decreed. A provisional list of those to be executed is said to have been drawn up already, which embraces the names of the czar of Russia, the emperor of Germany and the kings of Italy and Belgium.

"Is Mrs. Wise at home?" inquired Mrs. Chatters, standing in the shadow of the doorway. "I don't know, ma'am," replied the servant. "I can't tell till I get a better look at ye. If ye've a wart on the side of yer nose, ma'am, she ain't."—Philadelphia Press.

Any man can find work if he will go to work and look for it.

There are still some vacant lots on Easy street.

ly; Fifth ward, I. O. Walker;
Sixth ward, J. C. Farley and Ed
Morris.We hear a good deal about gypsy
tea being given to visitors at May-
field. Is there anything in it?—Cal-
vert City Times."Make way for the ladies." What
they might accomplish should their
attention be turned to civic matters,
was made patent last night, when
they persuaded the joint councilman-
ic committee to favor an ordinance,
prohibiting roller skating on the
sidewalks, something male voters
have worked for in vain. But their
labors are not ended. When all those
kids and their parents get into the
tug of war, the members of the gen-
eral council will be pulled and hauled
some.

NOW, FOR PADUCAH.

Just one month from today Padu-
cah is to entertain a big immigration
and good roads convention. The im-
migration movement has received a
great impetus by the modest but suc-
cessful beginning in McCracken coun-
ty, and the interest manifested in
other parts of the state. The good
roads is a subject we have always be-
fore us. The state department of
agriculture and the national bureau
of immigration are both taking an
active interest in this convention and
will send speakers to address the
crowd. This convention will take
place during the horse show and fall
races, thus making more certain a
large attendance, providing the
weather is favorable. Paducah is the
metropolis of all Kentucky west of
Louisville's sphere of influence. It isto Paducah we wish to attract. The
Purchase and the Pennyrile; to
make Paducah the commercial and
social center of the section. If the
city fails to perform her whole duty
as hostess to her guests on this occa-
sion, she might as well resign her
pretensions in favor of some smaller,
but more capable city. The city in
the end is just her citizens. She will
be generous and hospitable and pro-
gressive, just as her citizens display
these characteristics and in the
same degree. It will require a cer-
tain amount of money to entertain
delegates to the approaching con-
vention. What will Paducah do?Fulton has a Stocking club. The
winners of the first two prizes re-
ceive silk stockings. The others take
brick ice cream and angel food for
themselves. If they play bridge whilst
the way it generally is played, one or two
of those girls are going to have lots
of silk hosiery, and the rest of the
winners will be comfortably full of ice
cream and angel food before the club
waives.We presume that German vessels
captured by the French off Morocco
was a schooner.DIGESTION AND THE
PRESIDENCY.William Taft must have a good di-
gestion. This is an important quali-
fication for the chief magistracy. Not
that he must necessarily be proof
against rich and unwholesome food,
for our Democratic institutions per-
mit of our executive living on bread
and milk, if he desires; but think of
the dire calamity of having a dyspep-
tic president. Pessimism would be
the national policy. Cabinet crises
would be the refrain of all Washing-
ton correspondence. The story of our
foreign relations, under such an ad-
ministration would look like a fever
chart in a hospital, as our influence
rose and fell in response to the pre-
sidential digestion.We know that Taft's digestion is
good, because optimism is the domi-
nant note of his utterance. He says
our war with Spain was the most al-
truistic national enterprise of arms
ever undertaken. He sees in the
perplexing problems of our colonial
system (And bear in mind, the bur-
den has rested chiefly on his broad
shoulders) but a providential inter-
position to keep us broad-gaged,
when the tendency is to narrowness
and selfishness. He says in the main
in our dealings with the colonies, we
have been true to tradition and our
ideals. He believes the south can
solve the race question, and do it
without trouble. He believes we are
better than our forefathers and grow-
ing better; and he sees in the fre-
quent sporadic ebullitions of the so-
cial world, but indications of a deep
movement, that has in it the ele-
ments of world progress.Courage and optimism and frank-
ness are here displayed.Opposition of the Louisville ma-
chine to the state machine's state in
the Democratic municipal primary
means that the exposure of the Dem-
ocratic rule in Louisville will be
complete before the election, and
that the retaliation of the city ma-
chine will put the Democratic state
ticket in jeopardy.Telegraph strikers feel encouraged
and the companies are not disturbed
by the situation. The public, howev-
er, does not enjoy the seatment of
either side.As proof of the sweetness of Gladys
Vanderbilt's disposition, it is re-
corded, that when she received \$12-
500,000 as birthday present, she did
not pout and say she wanted a piano.Ben Tillman's prophetic vision
sees Kentucky Republican in 1908.
Of course, the national election is
the only one that interests the coun-
try at large; but Ben might predict
the outcome of the 1907 race, with-
out changing anything but the date.

GEORGE ANDRECHT.

George Andrecht, Republican can-
didate for city jailer, promises no ad-
ministration of that office, that will
cut down the expense to the city of
several hundred dollars. The clean-
liness and tidiness of the city hall
building, also under the care of the
jailer and his prisoners, will receive
unwonted attention. No better selec-
tion for this office could be made.The Kentucky State Journal wants
only a straight Democrat, and one
that bears the Frankfort trade mark,
to try Caleb Powers, the same kind
that tried Judge Hargis. The Journal
comments:That is a fine bunch of bol-
ters and Republicans that Pow-
ers' attorneys proposed to select
a judge from. True there are
two or three straight Democrats
in the list, but a number of the
others put down as Democrats
don't even call themselves by
that name now, while others
haven't voted the ticket for
years. Colonel Robert B. Frank-
lin was wise not to agree on any
man the defense named, who
would accept the job.BRYAN DOESN'T
LIKE TAFT TALKDisappointed With Conserva-
tism of Secretary.Especially License Secretary Is Pro-
tectionist in Principle and
Policy.

HE CALLS TAFT A STRADDLER

Lincoln, Neb., Aug. 27.—William
J. Bryan's reply to the speech of
Secretary Taft at Columbus, O., was
given out tonight. Secretary Taft is
condemned as a "straddler" on nearly
all the important issues and criti-
cised for not taking advanced ground
in reform. Mr. Bryan complains
also that his own position has been
misrepresented by the secretary. Mr.
Bryan says:"Secretary Taft's speech will prove
a disappointment to those who ex-
pected a clear bugle note in favor of
reform. There is not a single ques-
tion on which he takes a strong ad-
vanced position."On the railroad question he is in
favor of preventing watered stock,
opposes the consolidation of compet-
ing lines and the duplication of dis-
tricts. So far so good; but he
does not advocate the ascertaining
the value of the roads or the reduc-
tion of rates. He even defends the
president from the charge of favor-
ing the reductions made by the states.
The railroads may object to his rhet-
orical demolition of abuses, but they
will hardly be scared by his reme-
dies."On the trust question he thun-
ders at unlawful trusts, but not only
does not recommend new legislation,
but takes the position that a monop-
oly may not be harmful. He seems
ever undertaken. He sees in the
perplexing problems of our colonial
system (And bear in mind, the bur-
den has rested chiefly on his broad
shoulders) but a providential inter-
position to keep us broad-gaged,
when the tendency is to narrowness
and selfishness. He says in the main
in our dealings with the colonies, we
have been true to tradition and our
ideals. He believes the south can
solve the race question, and do it
without trouble. He believes we are
better than our forefathers and grow-
ing better; and he sees in the fre-
quent sporadic ebullitions of the so-
cial world, but indications of a deep
movement, that has in it the ele-
ments of world progress."He recognizes that 'restraining is
more difficult' when one corporation
swallows up a lot of other corpora-
tions—that it involves enormous la-
bor on the part of the government to
prosecute such a combination be-
cause the proof of the gist of the
offense lies underneath an almost
limitless variety of transaction; and
yet he is opposed to the license sys-
tem which would enable the govern-
ment to absolutely prevent a monop-
oly. In other words, he gives the
benefit of the doubt to the corpora-
tion instead of to the people."He thinks that putting one or
two trust magnates in the peniten-
tiary would have a healthy effect,
but he uses so many qualifying words
that one is left in doubt as to what
he really favors."He makes out a strong case in
favor of tariff reform, but when he
gets to the remedy he goes no far-
ther than the Republican leaders
have gone in former campaigns. He
wants enough tariff to cover the dif-
ference in cost of labor here and
abroad, the excuse given for the
present tariff, and he wants the tariff
reformed by his friends.

"Tariff reform by the friends of

SHIRT REDUCTIONS

At the New Store

NEGLIGEE and out-
ing shirts have now
been added to the av-
alanche of super-values
which the New Store is
offering during their
great Semi-Annual
Clearance Sale. And
they're beauties, too—
there is a refinement
about the patterns and a
smartness of cut which is
not found in the ordi-
nary run. Here are the
prices, for cash:

\$1.50 Negligee Shirts	— \$1.20
2.00 Negligee Shirts	— 1.60
2.50 Negligee Shirts	— 2.00
3.00 Negligee Shirts	— 2.25
3.50 Negligee Shirts	— 2.63

See them in the
windows.DOY L. CULLEY & CO.
415-417 BROADWAY
OUTFITTERS TO MEN AND BOYSthe tariff is a force and a fraud and
the secretary runs away from the
conclusions which would naturally be
drawn from the statistics which he
presents."

IN THE COURTS

In Bankruptcy.

Referee in Bankruptcy E. W. Bar-
by this morning ordered Trustee
John Rock, in the Paducah Furniture
Manufacturing company case, to
turn over to Cress & Ross, 75, costs
and expenses entailed in filing a pe-
tition forcing the firm into bank-
ruptcy in Louisville.

Police Court.

Frank Crane, drunk and disor-
derly, \$5 and costs; E. D. Hood,
breach of peace, continued; Nan-
nie Smith, colored, breach of peace, \$5
and costs; Levi Rough, colored, pe-
tite larceny, continued; John Robin-
son, colored drunkenness, \$1 and
costs.BUSINESS MEN OF NATION
NO FEAR OF HARD TIMES.New York, Aug. 27.—Are condi-
tions such throughout the country
that hard times are coming?The World has asked this question
of merchants, bankers, manufactur-
ers, capitalists and farmers in every
section of the United States, and the
answers show a wide divergence of
opinion. In the financial centers of
the east a contraction in business is
generally conceded. That it will
lead to hard times is not believed.
General manufacturing, however,
even in the east, is reported to be
enjoying high prosperity, the textile
industry being especially favored.In the west the reports show that
commerce is still going on at high
pressure. Counting on fairly good
crops, the fear of hard times is gen-
erally scouted. In the northwest
prosperity is relied on to continue.The south also reports conditions
looking to a continuance of good
time.

Hague 'Debt Plan' Amended.

The Hague, Aug. 27.—The Ameri-
can proposition concerning the col-
lection of contractual debts is ready
for submission to the examination
committee of the peace conference.
General Horace Porter having intro-
duced the desired changes, including
those recommended by the Latin-Ameri-
can states. Dr. Luis Drago (Argen-
tina) is receiving congratulations
on the proposition, for it is believed
that it will now more closely resem-
ble the Drago doctrine.

\$146,740,000 in Cuban Trade.

Washington, D. C., Aug. 27.—
Trade of the United States with Cuba
in the fiscal year just ended aggre-
gated almost \$150,000,000. The val-
ue of the imports from Cuba in the
fiscal year ending June 30, 1907, was
\$97,441,690, and of the exports there-
to, \$19,305,274.In both imports and exports the
trade with Cuba in 1907 exceeded
that of any previous year. The large-
est imports from the island in any
previous year were those of 1905,
when they aggregated a little over
\$86,000,000.The largest exports to the island
prior to 1907 were those of 1906,
when they aggregated \$47,750,000.

Bare Ceremony at Own Burial.

Ottumwa, Ia., Aug. 27.—In a rough
coffin made of lumber which he had
kept for years for the purpose, and
with no service whatever, the body of
Levi Orman was borne to the grave
today, not in a hearse, but in an or-
dinary wagon—all in keeping with
the wishes of the eccentric old man.
Orman died at the age of 86 years
and had lived in Wapello county for
more than half a century.

Mistake Prevents a Suicide.

Terre Haute, Ind., Aug. 27.—The
mistake of a clerk in a hardware
store, at Sullivan prevented P. F.
Anderson from committing suicide.
Anderson asked for cartridges, hand-
ling over his revolver to be loaded.
Then he placed it at his temple and
pulled the trigger four times, but
there was no discharge. The clerk
had placed rim fire cartridges in the
revolver, which is a center fire weap-
on.

Four Die in Train Crash.

Grand Junction, Colo., Aug. 27.—
A report reached here today that the
second section of Denver and Rio
Grand passenger train No. 6, east-
bound, from Salt Lake to Denver, was
derailed near Provo, Utah, this af-
ternoon and that four passengers
were killed and a number injured. A
severe storm prevails from this
point west and only the meager de-
tails above given have been received.

YOU DON'T HAVE TO WAIT

Every dose makes you feel better. Laz-Pos
keeps your whole insides right. Sold on the
money-back plan everywhere. Price 50 cents.—Something doing tonight Third
and Broadway at 8 o'clock.

The Evening Sun—10c. a week.

Physicians agree that Belvedere Beer
is a most healthful, nourishing and sus-
taining beverage, richer in food values
than other beers.

The Belvedere Malting Process secures
all of the nutriment in the barley-grain,
which the Belvedere Perfect Brewing
Process transmits to the beer in pre-
digested form.

Belvedere Beer, rich in malt and tonic
properties of hops, makes an ideal drink
at meals or between meals, aiding diges-
tion and soothing nerves.

Paducah Brewery Co.
Phone 408.

THREE FIRES
IN ONE NIGHT

Continued from Page One

225 pounds of pressure to five lines
of hose. The pressure was so strong
that it went through roof and ceiling
as though thin paper. Water was
played into the building from every
direction and after an hour's hard
work, the flames were beaten into
submission.

Cartridges Explode.

Dangers of the gravest nature
menaced the firemen, but they never
flinched, and stood with molten metal
pouring about them fighting the fire
back. A earload of cartridges was
stored on the fourth floor. They
were brass shells and when they be-
gan to explode Captain Joe Collins,
of No. 1 station, had to shut doors
and take other precautions to pre-
vent bullets striking his men. Bul-
lets penetrated the ceiling and were
forced down below. They spread in
every direction, making the work
doubly dangerous.James Williams, of No. 1 company,
was standing on the third floor play-
ing a stream through the ceiling to
the fourth floor when a stream of
molten metal struck his head and
went down his back. He moved aside
and escaped more serious burns. The
metal came from enamel ware which
melted and ran through the burning
door.Even the water was hot, and what
dripped down below scalded the
men.Toward daybreak the fire was got-
ten under control, and at 6:30 o'clock
fire companies left, having extin-
guished the last spark.

Fooks-Acree Mill.

The third fire occurred while the
firemen were busy with the broad-
way blaze. It was the saw mill of
the Fooks-Acree Lumber company.

SOUND LOGIC.

August and September are two
months when one has to be very care-
ful about every condition that makes
for good, or bad health. The system
is usually beginning to feel the strain
of the hot summer months and the
different organs need but very little
to throw them into complete disor-
der and result in probably a fatal ill-
ness.Good health is assured however if
you heed nature's gentle warnings,
and are in any measure discreet.The usual summer disorders—ma-
laria, general worn-out, and run-
down, conditions, biliousness, stomach
and bowel disorders of all kinds,
chronic or acute headaches yield
readily, and very quickly, to the Os-
teopathic treatment, and have no
attending ill effects. Usually you are
as ill from the customary medical
prescriptions as from the illness, but,
in Osteopathy you experience none of
this. Let me tell you at any time
of the great success I am having with
the treatment in Paducah. I shall re-
fer you to people you know well for
the evidence, and who will tell you
just what it has done for them.DR. G. G. FROAGE,
516 Broadway, Upstairs. Phone 1406.located three miles beyond the Mil-
lions Central passenger station on
the Pool road. The origin of the fire
is unknown, and the mill is a total
loss. Only one or two saws were
saved. Mr. Fooks estimated his loss
at \$250 with no insurance. He
stated this morning that the mill
would be rebuilt at once, but would
be moved nearer the city, where fire
protection could be had.

Scott-Henneberger Loss.

Mr. Frank Scott estimates his
firm's loss at \$30,000, fully covered
by insurance. "We will save a little
salvage for the wrecking company,
but a very little," Mr. Scott stated.Mr. L. W. Henneberger, who owns
the retail department, stated, "I have
little that can be saved as salvage,
and my loss will be \$20,000, but is
fully insured.The Tennessee theater adjoining
the Scott-Henneberger building, was
damaged by water. The chairs and
wall paper were soaked, but the mov-
ing picture machines escaped. The
theater will be opened for tonight's
performance.The Amertenn Express company,
adjoining to the east, was slightly
damaged by water soaking wall pa-
per.

Firemen Complimented.

Both Messrs. Henneberger and
Scott complimented the firemen. The
almost unbearable heat made the fire
one difficult to fight, and the fact
that it was fought back and confined
to one floor, speaks well for the
firemen. Dense smoke prevented in-
gress to the building for some time
after the firemen arrived.Insurance adjusters have been
notified of the fire and will arrive in
a few days.Fireman Ike Hollowell, of No. 1
company, was injured by running a
nail through his foot, and nearly ev-
ery fireman received blisters about
the face and hands."I have no idea how the fire origi-
nated," declared Electrical Inspector
McIntosh. "The wiring was in-
spected by former Inspector William
Gilsdorf, and pronounced in excellent
condition. There is said to have
been no fire about the building.

Church Loss.

The loss to the First Ward Epis-
talian church and two adjoining houses
will aggregate \$2,000, partly cover-
ed by insurance. Knox Flourm-
an and T. C. Leach owned the houses
burned, and carry insurance. It was
only yesterday that the congregation
of the church removed from a tent
to the church with a protracted meet-
ing.Occupants of the houses saved
most of their household effects, but
their combined loss will amount, to
several hundred dollars with no in-
surance. The fire had gained a
great headway, originating in the
church, when discovered by Patrol-
men Hill and Rogers. The fact that
all companies were out, prevented an
immediate appearance on the scene.

Loss to Building.

Captain James White, of Nashville,
owns the Henneberger-Scott building,
and has been notified of the fire. He
is expected in Paducah at once. The
entire fourth floor is a total loss. The
walls will have to be rebuilt for a dis-tance of several feet from the fourth
floor. The third floor is not badly
damaged and can be repaired at little
expense. An estimate of the damage
to the building is fixed at between
\$1,900 and \$4,000, the doors and
steel ceilings being badly damaged
by the volume of hot water pouring
down through the floors. Captain
White has the building fully covered
by insurance.The Scott Hardware company was
burned during 1904 in the same
building, and several years prior to
this the Kentucky Glass and Queens-
ware company burned out in the
same building.

Fireman Rewarded.

Fire Chief James Wood this morn-
ing shortly before noon received a
brief note of thanks from the Scott
Hardware company and with the note
came a check for \$50, which Chief
Wood will distribute equally among
firemen. It is a just tribute to the
hard fight made by firemen, and is
greatly appreciated.Fire Chief C. T. Sullivan, of Mem-
phis, will be in Paducah tomorrow.
He is on his vacation, and is today in
Evansville. While here he will be
the guest of Fire Chief James Woods.The East Tennessee Telephone
company suffered a slight loss from
the Twelfth and Harrison streets
fire. A cable carrying one hundred
wires melted, and it will require un-
til midnight to repair the damage.

SAN PATTERSON FORCED FLEE.

Former Thorns Girl Is Said To Have
Threatened Life of Magnate.Pittsburg, Pa., Aug. 27.—It came
out today that another sensational
chapter has been added to the book
of "Nan" Patterson, the former cho-
rus girl who was tried for the
shooting of Caesar Young, the New
York bookmaker in a cab in Broad-
way, who has just fled Pittsburg at
the "request" of friends of a wealthy
steel magnate, whose life she threat-
ened.Miss Patterson is alleged by
friends of the wealthy "angel" to
have threatened his life one night
when she was intoxicated, and fear-
ing she would make good her threat
it was made plain to her that she
must go, so she was sent to Wash-
ington, D. C., where she now is sup-
posed to be. In the meantime the
steel man, who has offices in the
Frick building here, is ill as the re-
sult of the excitement.The incident occurred at a road-
house a few miles from McKeesport,
where Miss Patterson had been liv-
ing in style.

The contest for the Goddess of Labor, which is being conducted by the Hodcarriers' union, colored, and which closes tomorrow night, stands as follows: Bessie Stone, 196; Nettle Newbirt, 91; Little Mae Boyd, 10; Lorena Hale, 6; Bertie Williams, 8.

Best and cheapest. We rent bugles, carriages and horses separately. Both phones 190, Copeland's Stable, 419 Jefferson street.

The Christian Endeavor Society of the Kentucky Avenue Presbyterian church will give a lawn social tonight on the lawn of Mrs. Enbanks, Sixth and Washington streets. Music and refreshments.

Miss Bessie Smedley, of South Fourth street, has a genuine horned toad frog sent her from Texas, where she spent several weeks this summer.

When a man is glad to be bald-headed it was red.

PEOPLE AND SOCIAL EVENTS

Picnic at Almo.

Mrs. James P. Sleeth and Mrs. Frank Coburn left this morning with a party of young ladies for Almo, a few miles south of Paducah on the Nashville, Chattanooga and St. Louis railroad to enjoy a picnic. Miss Grace Mills gave the picnic.

Sunday School Convention.

Many Paducahans are attending the state Sunday school convention at Madisonville, and following is a partial list of those who left this morning: Miss Olga List, Miss Rosa Kolb, the Rev. and Mrs. W. E. Hough, William and Katherine Rock, Mrs. W. Y. Griffith and daughter, Miss Isabella Griffith, Miss Lettie Smith and Mrs. G. Miles.

After Thirty Years.

After 30 years' separation, three sisters, Mrs. Champ Oliver, of Skieson, Mo.; Mrs. J. W. Stewart, of Murray, and Mrs. Mack Miltstead, of Princeton, met at the home of their brother, J. H. Cochran, 290 Hayes avenue, Meadlandsburg, Sunday and dined together.

Party Party.

Compliments to Miss Virginia Bush and Miss Elane Evans, of Smithland, Miss Madeline Cook entertained last night at her home, 420 South Sixth street, with a party. Covers were laid for twelve, and the evening was pleasantly spent with games and music. A patriotic idea was carried on in the color scheme, red, white and blue, and each guest received a small United States flag as a souvenir. Desserts were served during the evening by the hostess. In attendance were: Misses Virginia Bush, Elane Evans and Gladys Dunn, of Smithland; Joe Miller, Ora Pryor, Madeline Cook and Masters Harry Johnston, John Thompson, Lorenzo Ganser, Herndon Lackey, Philip Bailey and Harry Dunn, of Smithland.

Invitations Received.

Invitations were received in the city today announcing the engagement and approaching marriage of Miss Kathryn Savage and Mr. Thomas Lester Baker, September 9. The ceremony will take place in the morning at 7 o'clock in the church of the Mediator, Merdan, Miss. Mr. Baker was for-man of the composing rooms of the Evening Sun until several years ago, and is a popular and energetic young man. For some time he has been for-man of the Merdan Dispatch and is a progressive newspaper man. Miss Savage is a charming young woman of her home town.

Howell-Bishop.

Miss Fannie Howell and Mr. Will Bishop surprised their friends last night by being quietly married by the Rev. W. T. Hollings, at his home on North Seventh street. They were married at 8 o'clock. The bride is a popular young woman of the south side, and the groom is a well known river man. Mr. and Mrs. Bishop will make their home in this city.

Attorneys A. Y. Martin and E. W. Bagby have returned from Wickliffe, where they have been on business. Mr. Stewart Dick, city assessor, is reported better today at the residence of Mr. Robert Noble, 1664 Broadway. Mr. Dick has been ill of malarial fever for five weeks. Mrs. Caldwell has returned from a week's visit to Carbondale. Miss Mabel Russell, of 1133 North Fourteenth street, has gone to Mayfield for a few weeks' visit. Mr. H. E. Seaton, of Kevil, will return tomorrow from Union City, Tenn., where he has been on his vacation. Mr. and Mrs. Ava Rudd, have returned from a visit to Mr. and Mrs. R. Holt, of Ragland. Attorney Sam Crossland, of Mayfield, is in the city today. Miss Verda Wyman, of Lowes, arrived today from Mayfield and is of illness, reported for duty this morning.

Mr. Black Stafford has returned after visiting Dr. and Mrs. R. Holt, of Ragland. Mr. D. H. Ogilvie and family, of Nashville, are visiting the family of Mr. Hume Ogilvie. Mr. Fred Flanagan, the well known Illinois Central machinist, is in the city on business. Misses Emma and Sadie Masserant, of the Mayfield road, are visiting their sister, Mrs. J. P. Woodbridge, 1827 Guthrie avenue. Mrs. Joe Lambert has returned home after a visit in Dawson Springs. J. L. Scott, of Waverly, N. Y. president of the National Protective League, is in the city on business. He addressed members of the local league last night. He will go south from Paducah. Mr. J. R. Roberts went to Louisville today on a business trip. Mrs. John Cutlar, 1260 Monroe street, left today for Louisville to visit friends and relatives. Miss Harriet Gresham, of Mobile, Ala., is the guest of Mrs. Will Wright, Ninth and Monroe streets. Prof. and Mrs. W. H. Sugg went to Madisonville today to attend the State Sunday School convention. Mrs. C. W. Raark, of Greenville, returned to her home today after visiting Mr. and Mrs. William Eades, 930 Jefferson street. Mrs. W. D. Looney, of Paris, Tenn., and Mr. and Mrs. J. C. Travis, of Mexico City, were in the city today en route to Dawson Springs. Mr. and Mrs. Travis are visiting in Paris, their old home. Mr. and Mrs. A. L. Lassie went to Dawson this morning for a short visit. Mr. A. J. Jorgenson, a dispatcher for the Illinois Central at Fulton, and wife, are in Paducah today. Mrs. Clay Lema and son arrived from Mayfield this morning. Railroad Commissioner M. D. Ferguson passed through the city this morning en route to Guthrie, Mo. He will go to Glasgow the latter part of the week to attend a meeting of the railroad commission to hear complaints entered as to passenger rates over the Glasgow railroad. The hearing will be on Tuesday. Messrs. H. R. Lindsay and Percy Paxton and Attorney W. F. Bradshaw, Jr., went to Paris, Tenn., this morning on business. Senator Conn Linn returned to Murray this morning, after a business trip to the city. Prof. Harry Gilbert, the musician, went to Paris, Tenn., this morning. Mr. and Mrs. A. L. Lassie left this morning for Dawson Springs for a day's rest. Messrs. Louis Petter, Herbert Sullivan, Monte Lack and Charles Leake went to Louisville today on a visit. Mr. Henry Hughes went to Mayfield today on a short business trip. Mrs. S. W. Rash and Lawrence Cheek, 314 North Sixth street, went to Madisonville today. Mrs. Rash will attend the state Sunday school convention and visit her father. Mrs. Joe Arts returned last night from an extended visit to her parents in New York city. Mrs. Charles W. Fisher left today for Louisville on a visit to her father and mother. Mr. and Mrs. Charles Kromer. Mrs. Henry Hemmick, of Louisville, who has been visiting her daughter, Mrs. J. W. Fisher, 505 South Sixth street, returned to her home today. Miss Matt Schupp, who has been visiting Mrs. James T. Leake, returned to her home in Louisville today. Miss Gertrude Fisher, Miss Edna Goebel, Miss May Ella Leake and Mr. Joseph Fisher went to Louisville today on a visit to relatives. Mrs. Frank Wahl went to Madisonville today to attend the state Sunday school convention as a county delegate. Mr. A. W. Morris went to Princeton today on a business trip. Miss May Fowler returned from Mayfield this morning, where she has been visiting. Mrs. G. M. Tagg and little daughter, Minnie, 1027 Jefferson street, went to Dawson Springs today. After a several days' stay they will go to Louisville on a visit to friends. The Rev. George Farley went to Madisonville today to attend the State Sunday School convention as a representative of the Tenth Street Christian church. Messrs. Henry Settles and Charles Bilskey, of Clarksville, Tenn., are in the city on business. Miss Corrine Moss, of Clarksville, Tenn., is visiting in Paducah. Patrolman Aaron Hurley, who has been laying off two days on account

NEEDLESS ASSURANCE.

Not with me, dear, no," he said. "You never proposed to run away with my daughter?" cried the father.

"Run away with her?" stammered Bagley.
"And marry her?" shouted the senator, shaking his fist at him.
"Oh, say, this is hardly fair, three against one, really, I'm awfully sorry, eh, what?"

The door opened, and Kate Roberts bounded in. She was smiling and full of animal spirits, but on seeing the stern face of her father and the pitiable picture presented by her faithful Fitz she was intelligent enough to immediately retreat.

"Did you want to see me, father?" she inquired boldly.
"Yes, Kate," answered the senator

gravely, "we have just been having a talk with Mr. Bagley, in which you were one of the subjects of conversation. Can you guess what it was?"

The girl looked from her father to Bagley and from him to the senator, her aristocratic brow made a movement forward as if to contemplate him, but he caught Bagley's eye and remained where he was.

"Well," she said, with a nervous laugh.
"Is it true?" asked the senator, "that you were about to marry this man secretly?"
She cast down her eyes and answered: "I suppose you know everything."

"Have you anything to add?" asked her father sternly.
"No," said Kate, shaking her head. "It's true. We intended to run away, didn't we, Fitz?"

"Never mind about Mr. Bagley," thundered her father. "Haven't you a word of shame for this disgrace you have brought upon me?"
"Oh, papa, don't be so cross. Jefferson did not care for me. I couldn't be an old maid. Mr. Bagley has a lovely castle in England, and one day he'll sit in the house of lords. He'll explain everything to you."

"He'll explain nothing," rejoined the senator grimly. "Mr. Bagley returns to England tonight. He won't have time to explain anything."
"Returns to England?" echoed Kate, dismayed.
"Yes, and you go with me to Washington at once."

THE LION AND THE MOUSE.

By CHARLES KLEIN.

A Story of American Life Novelized From the Play by ARTHUR HORNBLLOW.

COPYRIGHT, 1906, BY G. W. DILLINGHAM COMPANY.

(Continued from last issue.)

Jefferson bowed and remained silent. Bagley senior eyed his son closely, an amused expression hovering on his face. After all, it was not so much he who had desired this match as Roberts, and as long as the senator was willing to withdraw he could make no objection. He wondered what part, if any, his son had played in bringing about this sensational denouncement to a match which had been so distasteful to him, and it gratified his paternal vanity to think that Jefferson might be a surer than he had given him credit for.

At this juncture Mr. Bagley entered the room. He was a little taken aback on seeing the senator; but, like most men of his class, his self-conceit made him confident of his ability to handle any emergency which might arise, and he had no reason to suspect that this hasty summons to the library had any thing to do with his matrimonial plans.

"Did you ask for me, sir?" he demanded, addressing his employer.

"Yes, Mr. Bagley," replied Bagley, fixing the secretary with a look that filled the latter with misgivings. "What summons have you tomorrow for England?"

"Tomorrow?" echoed Mr. Bagley.
"I said tomorrow," repeated Bagley, slightly raising his voice.

"Let me see," stammered the secretary. "There is the White Star, the North German Lloyd, the Atlantic Transport."

"Have you any preference?" inquired the senator.

"No, sir, none at all."

"Then you'll go on board one of the ships tonight," said Bagley. "Your things will be packed and sent to you before the steamer sails tomorrow."

The lion, Fitz Bagley, third son of a British peer, did not understand even yet that he was discharged as one dismissed from a household might kiss the policeman. He could not think what Mr. Bagley wanted him to do, and he was not at all sure of his own mind.

"How are they?"
"All to the good. Post cards were brought to us from every town. Often we didn't have to leave the train."—Pittsburgh Post.

"Returns to England?" echoed Kate, dismayed.
"Yes, and you go with me to Washington at once."

The senator turned to Bagley.
"Howdy, Bagley. The little domestic comedy is ended. I'm grateful it didn't turn out a drama. The next time I pick out a son-in-law I hope I'll have better luck."

He shook hands with Jefferson and left the room, followed by his crestfallen daughter.

Bagley, who had gone to write something at his desk, strode over to where Mr. Bagley was standing and handed him a check.

"Here, sir. This settles everything to date, closed day."

"But I—" stammered the secretary helplessly.
"Good day, sir."

Bagley turned his back on him and conversed with his son, while Mr. Bagley slowly and as if regretfully made his exit.

(To be continued in next issue.)

Plowing in a Ship.
A common, everyday warm plow was used in unloading the cargo of the Armon at San Francisco. The entire hold was filled with 1,500 tons of nitro, which had frozen into one solid mass and very hard. Explosives could not be used, and picks and shovels were too slow. As a joke a tylander suggested they better use a plow.

The captain, however, decided to try the plan, and bought a good sized plow and by means of block and tackle and steam which pulled it back and forth the length of the hold. The plan functioned the nitro as fast as a big gang could shovel it into the steel buckets. This is probably the only instance on record where a ship's cargo was discharged in this way.

Popular Mechanics.

Dr. Todd's Joke.
An amusing example of the Irishman's pronunciation occurs in a story told of the late Dr. Todd, the Irish archeologist, who, although a great scholar, was not above perpetrating a practical joke. The London Spectator tells the story and says:

A very learned Englishman went to Dublin to examine some manuscripts in the library of Trinity college, and was of course introduced to Dr. Todd, who one day in conversation told him that there was in Trinity college a curious instance of the survival of a habit dating from the time of the Danes; that at a certain hour of the afternoon—1 o'clock—a porter would ring a bell and calling out in a loud voice, "The Dane's in the hall," when all the students rushed from their rooms to repel the invaders. So the learned but somewhat incredulous Englishman repaired to the college at 1 o'clock, and, sure enough, what Dr. Todd had told him came to pass, which he gravely related on his return to England. The summons of course referred to the dean.

The Three Fates.
The names of the three fates were Clotho, Lachesis and Atropos. To express the influence which they were believed to exercise on human life from birth to death they were represented as spinning a thread of gold, silver or wool, now tightening, now slackening and at last cutting it off. Clotho, the youngest, put the wool round the spindle, Lachesis spun it, and the aged Atropos cut it off when a man had to die.

"My husband's attention to me when I run away is unreciting. I get a letter every day. You don't hear so often Mrs. Jones." "No, my husband's attention is not of the unreciting kind. He always encloses a check."—Baltimore American.

For the CHAFING DISH Denatured Alcohol

We take pleasure in announcing that we now have Denatured Alcohol for our trade. It is to be used for burning purposes only, as nearly every one now knows, but for use in the arts and mechanics it is the most economical and satisfactory fuel known.

Cheaper than wood alcohol, it also burns without any of its offensive odor. Next time try it in your chafing dish or alcohol heater; it will be a revelation to you. Be sure to phone WINSTEAD'S, for no other Paducah drugist handles it.

NAVIGATES GLOBE TO SHOW PROWESS

United States Fleet Will Around the World.

Attempt Something Never Before Considered By Great Maritime Powers.

CAPE HORN AND GOOD HOPE.

Washington, D. C., Aug. 27.—Instructions have been received at the navy department to make preparations for the voyage around the world by the battleship fleet. The cruise will begin in December and end early next fall. The ships will start from New York and return to east anchor at New York.

It will be the most tremendous naval demonstration the world ever has seen—not in number of ships, for Great Britain has a force almost three times more powerful—but in the ability of the American government to transport such large modern fighting craft to any possible scene of action.

It will give Japan and Europe an object lesson. The administration thinks it about time they should have an object lesson in the efficiency of the American naval officers and American seamen, which it is alleged abroad they do not possess. It also will have the effect of making the officers more skillful in maneuvers and provide them with that training in fleet battle tactics which they have not had up to this time.

Real Purpose to Awe Japs?
There is not the slightest doubt in diplomatic circles that the real purpose of the president's move is to awe Japan. That nation has just done what foreigners anticipated—replied to the action of the president by the organization of the new squadron at Hong Kong. It was from this point that Admiral Dewey started on his voyage in 1898 which ended in the conquest of the Philippines. Lying about 600 miles from Manila, Hong Kong furnishes an admirable base of naval operations. The United States can no more object to the proximity of the Japanese squadron to the Philippines than Japan can object to the dispatch of the battleship fleet to the Pacific, and thence to the Atlantic.

If trouble should arise, the Japanese command will be in a position to descend quickly upon Manila and Olongapo and gobble up the small craft which this government has left in the islands and wreck as much damage as possible before the arrival of the battleship fleet. An attack on the Philippines would mean that the far east would be the theater of war and it would be to that distant scene the United States would have to go in order to carry on hostilities.

Move to Recover Prestige.
In other words, Japan has taken steps to recover the prestige lost by the president's decision to send the battleship fleet to the Pacific. This, at least, is the view of diplomats and of well informed naval officers. It is a move which the administration will use to justify the orders to the battleship fleet should justification be necessary.

The time allowed by the navy department for the cruise around the world will not be too much for a

fleet that will have to sail with the deliberation of a battleship command must observe.

As announced after the conference at Oyster Bay the other day, the fleet will leave New York, stop at Trinidad, off the east coast of Venezuela, call again at Rio de Janeiro, put in at Sandy Point in the straits of Magellan, proceed thence to Callao, Peru and Magdalena Bay, where target practice will be held. From Magdalena Bay the ships will steam to San Francisco and may go to Puget sound for docking.

Fleet Will Steam 35,000 Knots.
To traverse this distance the ships must steam 18,000 knots. From San Francisco to Manila the fleet will have to cover 7,240 knots. Because of the possibility the Suez canal cannot accommodate battleships of the draft of the Louisiana type. It is possible the ships will have to round the Cape of Good Hope. Coming via canal the fleet would cover 12,000 knots. Passing around the Cape of Good Hope the distance would be about 3,000 knots longer; so, to sum up, the total distance the fleet will have to make, unless the present program is modified, will be about 35,000 knots.

It contains no opiates or harmful drugs, can be given with safety to children. Price 50c. Sold by Alvey & Laid. Withams & Co., Props., Cleveland, O.

NEW CRATERS.
In Probably the Most Interesting of All Volcanic Regions.

Near the headwaters of the Kobuk river is one of the most peculiar chains of craters that have ever been discovered, says a Rome correspondent. It consists of five distinct extinct volcanic centers and is probably the most interesting of all volcanic regions in this northern country.

The craters are situated near the portage of the Aana, on the south fork, close to the body of water known as Carbon Lake, by the natives. They are stretched over a large triangular valley or basin and are peculiarly visible from the surrounding ridges.

The first of the craters contains several hot springs, which do not freeze in the coldest winters. It is about a quarter of a mile in diameter, while the edges are fully 200 feet. There is not a particle of vegetation near. The water emitted from the springs is of a yellowish color and sulphurous in taste. It is highly effervescent, undoubtedly containing other mineral substances.

All of the other craters are smaller than the first and are covered with moss from the edges to close to the centers, which are bare lava.

The sides are steep and exceedingly difficult to scale. It is easy to see where the lava and ashers have flowed over and been washed down the creek, as there is no timber in the vicinity, but much both above and below the old volcanoes, and it is probable that all vegetable growth was killed years ago by the first eruptions.

The largest crater probably was the last to subside, which accounts for the springs, which are still running and the lack of moss on its sides.—Walla Walla Bulletin.

Persian Ideas.
An American traveler in Persia learned that the common soldiers of that country supposed that the English practice of firing a salute at the burial of a soldier had for its object the driving away of devils. Other mistaken impressions no less absurd he reports in his "Persian Life and Customs."

A village soldier asked me if I knew of dog worshippers. I told him I had heard of the worshippers, cow worshippers and the like, but not of dog worshippers. He said he had seen some in Teheran. Some foreigners there had fed dogs at their tables, had washed and clothed them, fondled them in their laps and taken them riding in their carriages. Were they not dog worshippers?

An English sea captain, whose ship touched at Bushire, took a horseback ride through the streets of the city, but made so poor a display of his manhood, as to attract and annoy the people. The next day a vessel of friends came on board the ship and sold to the captain:

"I have made such an explanation as to free you from all reproach. There is no one who does not think that you are an expert rider, as becomes one of a nation of horsemen."

"And how did you do that?" asked the captain.
"I told them you were drunk."

His Foresight.
"What makes you keep predicting all sorts of disasters for the country?"
"Well," answered Farmer Corn-tassel, "I sort of do it for self protection. If anything should go wrong I'll at least have the comfort of saying 'I was a good prophet.'"

Let that will have to sail with the deliberation of a battleship command must observe.

As announced after the conference at Oyster Bay the other day, the fleet will leave New York, stop at Trinidad, off the east coast of Venezuela, call again at Rio de Janeiro, put in at Sandy Point in the straits of Magellan, proceed thence to Callao, Peru and Magdalena Bay, where target practice will be held. From Magdalena Bay the ships will steam to San Francisco and may go to Puget sound for docking.

It contains no opiates or harmful drugs, can be given with safety to children. Price 50c. Sold by Alvey & Laid. Withams & Co., Props., Cleveland, O.

NEW CRATERS.
In Probably the Most Interesting of All Volcanic Regions.

Near the headwaters of the Kobuk river is one of the most peculiar chains of craters that have ever been discovered, says a Rome correspondent. It consists of five distinct extinct volcanic centers and is probably the most interesting of all volcanic regions in this northern country.

The craters are situated near the portage of the Aana, on the south fork, close to the body of water known as Carbon Lake, by the natives. They are stretched over a large triangular valley or basin and are peculiarly visible from the surrounding ridges.

The first of the craters contains several hot springs, which do not freeze in the coldest winters. It is about a quarter of a mile in diameter, while the edges are fully 200 feet. There is not a particle of vegetation near. The water emitted from the springs is of a yellowish color and sulphurous in taste. It is highly effervescent, undoubtedly containing other mineral substances.

All of the other craters are smaller than the first and are covered with moss from the edges to close to the centers, which are bare lava.

The sides are steep and exceedingly difficult to scale. It is easy to see where the lava and ashers have flowed over and been washed down the creek, as there is no timber in the vicinity, but much both above and below the old volcanoes, and it is probable that all vegetable growth was killed years ago by the first eruptions.

The largest crater probably was the last to subside, which accounts for the springs, which are still running and the lack of moss on its sides.—Walla Walla Bulletin.

Persian Ideas.
An American traveler in Persia learned that the common soldiers of that country supposed that the English practice of firing a salute at the burial of a soldier had for its object the driving away of devils. Other mistaken impressions no less absurd he reports in his "Persian Life and Customs."

A village soldier asked me if I knew of dog worshippers. I told him I had heard of the worshippers, cow worshippers and the like, but not of dog worshippers. He said he had seen some in Teheran. Some foreigners there had fed dogs at their tables, had washed and clothed them, fondled them in their laps and taken them riding in their carriages. Were they not dog worshippers?

An English sea captain, whose ship touched at Bushire, took a horseback ride through the streets of the city, but made so poor a display of his manhood, as to attract and annoy the people. The next day a vessel of friends came on board the ship and sold to the captain:

"I have made such an explanation as to free you from all reproach. There is no one who does not think that you are an expert rider, as becomes one of a nation of horsemen."

"And how did you do that?" asked the captain.
"I told them you were drunk."

His Foresight.
"What makes you keep predicting all sorts of disasters for the country?"
"Well," answered Farmer Corn-tassel, "I sort of do it for self protection. If anything should go wrong I'll at least have the comfort of saying 'I was a good prophet.'"

The connection between a lark and whiskey is one that almost any married woman may be depended on to find out.—Florida Times-Tribune

FREE(?) CONCERT

WALLACE PARK CASINO
THURSDAY, AUG. 29, 1907
30-PIECE MILITARY BAND-30

A consolidation of the Paducah Military Band and the Metropolis Concert Band

The Metropolis band in recent years has won first prizes in numerous band contests in Southern Illinois, and includes in its membership some of the best musicians in the state. The Paducah Military Band during the last month has been rehearsing two and three times a week—in preparation for the Fall Horse Show. It is therefore in better condition than at any time this season, and the union of the two bands promises the music lovers the real

Musical Event of the Season.

RIVER NEWS

River Report.

Calto	20.9	0.1	fall
Chattanooga	3.9	0.1	rise
Cincinnati	20.8	0.7	rise
Evansville	8.8	0.3	rise
Louisville	7.1	1.7	rise
Mt. Carmel	4.0	0.1	rise
Nashville	7.4	0.1	fall
Pittsburg	5.3	2.2	fall
St. Louis	18.8	0.1	fall
Mt. Vernon	8.3	0.5	rise
Paducah	8.3	0.1	fall

The river is on another stand, and the prospects are that it will remain about the present stage for several days. This morning the stage was 8.5. Weather cloudy and business rather quiet about the wharf.

The Dick Fowler pulled out on time this morning for Cairo. Several passengers were late in getting down the hill and the Fowler was several feet from the wharfboat when several farmers jumped aboard. Much amusement was caused about the wharf. Yesterday was one of the biggest days in freight for the Fowler in many days. Every little landing contributed a cargo.

The John S. Hopkins was the Evansville packet today, and she had good business both ways.

The Elsenhardt-Henderson show boat was at the wharf today and will show here tonight.

The Clyde arrived today from the Tennessee river with a big trip. The Clyde will take the remainder of the old saw mill up the Tennessee river this trip.

The Martha A. Hennen was taken out on the dry docks this morning for repairs. The Hennen is in good condition and will not need much attention.

The Jim Duffy left today for the Tennessee river for the Ayer & Lord Tie company after a load of ties.

The Bettle Owen brought over the usual big load of hay this morning. Rivermen conjecture where all the hay comes from and where it all goes. Every morning the ferry is crowded on the lower deck with hay wagons.

The Royal arrived today from Golconda with a good freight and passenger trip.

The J. B. Richardson gave a colored excursion last night down the river. Today at noon the Richardson left for Shawneetown to carry excursions during the fair. Next Monday the Richardson will be taken out on the docks.

Boats were moving in a hurry this morning at the north end of the wharf, preparing a place for the show boat. This is a favorite place for the boats to store, but everything had to keep away today.

The Cowling made the usual trips

BAND CONCERT

WILL BE GIVEN AT WALLACE PARK THURSDAY NIGHT.

Deal's Band and Metropolis Band will unite for the occasion.

Thursday night at Wallace park one of the biggest musical treats will be afforded Paducahans of the season when Deal's band and the Metropolis band will be united and give a fine program. Prof. Deal went to Metropolis this morning to rehearse the band. Thirty musicians will be in the band, and all are good ones. The concert will begin at 8:15 o'clock.

Under direction of William Deal.

Part I.
 March—"Caesar's Triumphal"—Alexander.

Overture—"Hohemlan Girl"—Halle.

Waltz—"Daughter of Love"—Bennett.

Medley of popular songs—"Strains from Stern's."

Descriptive Piece—"A Hunting Scene"—Bucalossi.

Part II.
 March—"Crimson Flush"—Jewell.

Selection—"The Spring Chicken"—Carle.

Waltz—"Angel's Dream"—Hermann.

Medley of popular songs—"Renick's Hiss."

"Plantation Scenes"—A collection of southern melodies.

WELLMAN POLAR TRIP DELAYED

Tourists Report That Airship Did Not Sail on August 23.

London, Aug. 27.—The Hammerfest correspondent of the Daily Mail says Walter Wellman did not start from his camp at Spitzbergen for the north pole in his airship on August 23, as he hoped to do.

The last two tourist steamers of the year arrived at the camp at Virgo bay on August 25. They saw the balloon high in the air, confined by anchor ropes. Mr. Wellman said he was not able to start, as the breeze was wrong. He could start in a southeast wind. The tourists banqueted Mr. Wellman and his companions. Mr. Wellman said to them: "If I am lucky you will hear from me and the north pole in a week. If I am less lucky, in a fortnight. If you do not hear from me in three weeks you will never hear from me at all."

The steamers left twenty-four hours later. It was then remarked that the balloon seemed gradually being deflated. They passed Virgo bay for the last time on August 23 and no start had been made, although the weather was calm and bright. The passengers doubt if Wellman will or can start this year.

MR. POLLOCK RESIGNS.

Business Takes Him to Cairo, But M. W. A. Plans Progress.

At the meeting of the board of directors of the Modern Woodmen of America held last night Jacob B. Pollock tendered his resignation as chairman of the committee having in charge the interstate meeting for September 12. It was with regret the resignation was accepted. R. L. Eley was elected to succeed Mr. Pollock. Although Mr. Pollock has resigned his interest in the meeting remains steadfast, as he is going to Cairo and there arouse the lodge to send a big delegation here and work up interest for Cairo to secure the next meeting. A visit to the lodges in Missouri will be made this week by Mr. Pollock. Last week he visited several of the towns and many in Illinois and all promise to send representatives. Every preparation for the big day is approaching readiness for the entertainment.

RUSSIAN PLOT NIPED.

Scheme to Kill the Minister of War Is Foiled at Moment.

St. Petersburg, Aug. 27.—The St. Petersburg police recently received information that a plot was being formed against Gen. Rodzigher, the minister of war. An automobile was to pass the barracks of the Preobrazhensky guard regiment just as the minister of war would be driving out in his carriage, and the revolutionaries were to kill him. The police warned Gen. Rodzigher, who changed his route. When a motor car approached the barracks the police stopped it and arrested four men who were inside, armed with revolvers.

A man seldom does much good in the world until he stops trying to do harm.

MAYFIELD.

A gossip tea was given at the fair grounds last evening in honor of Miss Elizabeth Williamson, of Paducah, who is the guest of Miss Linda Brown, on Broadway.

The race next year for chief of police promises to be quite lively. Besides the present incumbent, C. H. McNatt, there are already two announced candidates, John Galloway and E. E. Webb. Ed Hamlet, deputy jailer, is in a receptive mood and may decide to enter the contest but has not yet fully made up his mind. —Mayfield Messenger.

MINISTER SUICIDES

AGED EPISCOPALIAN DIVINE GIVES WAY TO MELANCHOLIA.

Friend of Bishop Potter and Bishop Hoffman Cuts His Own Throat.

Los Angeles, Cal., Aug. 27.—With the glad voices of little children playing before him ringing in his ears, and in full view of nearly a thousand bathers and several hundred tourists, the Rev. Edward H. Jewett, 80 years old, for 15 years professor of pastoral theology in the general theological seminary of New York, a close friend of Bishop Potter and Bishop Hoffman, and one of the best known ministers in the United States, committed suicide this afternoon at 1 o'clock on Manhattan beach, 18 miles from this city, by slitting his throat from ear to ear with a razor.

Dependancy because of old age, superinduced by chronic melancholia and years of suffering from rheumatism, are given as the causes for the act by the deceased's family. Mr. Jewett disappeared suddenly at lunch time from the home of his son-in-law, the Rev. Angus M. Porter, rector of the Episcopal church at Redlands, Cal., who has been living at Manhattan beach since August 1.

GRASS AND TREES.

Root Surface of Latter Should Be Free From Vermin.

That many kinds of trees, especially fruit trees, flourish better when the grass is allowed to grow over their roots has been long known to farmers. In some cases the effect of the grass on freshly planted trees is decidedly injurious, and may be almost fatal. This phenomenon has been studied at the Woburn experimental fruit farm in England since 1891, and though no perfectly satisfactory explanation of the action has been obtained, it seems reasonably certain now that bacteria are concerned in it. Spencer Pickering, who writes on the subject in Nature, tells us that experiment has shown that it cannot be attributed to the abstraction of food or moisture from the soil by the grass, nor to the influence of the grass on the soil temperature or on the gaseous contents of the soil, and the formation of acid or alkali has also been excluded from the possible causes. The action may be that of a poison produced directly by the grass or indirectly through the agency of bacteria, or, as appears from the latest experiments, may be due to the killing by the grass of root bacteria that promote growth in some way. The writer says:

"The action is not confined to any particular grasses nor to apple trees, but different grasses and different kinds of trees act and suffer, respectively, to different extents. The differences in the results, however, produced by different soils are much more conspicuous, especially in cases where trees are not grassed over until a few years after they have been planted. Though the deleterious action of grass may generally be noticed throughout the country, many notable exceptions have been met with, and these cannot be explained by any of the patent characteristics of the soils in question. Various experiments have been made which emphasize these observations."

In February last, we are told, 26 similar trees were planted in pots under various conditions: 17 were in soil or sand which had not been heated, and nine of them in soil which had been sterilized, or partially sterilized, by heating to about 200 degrees C. and to 82 degrees F. The water lost in the process, being made good by the 17 in unsterilized material, all started uniformly at the same time, whereas of the nine in sterilized soil two started about two days later, six did not start until at least 14 days later and one has not started yet. To quote further:

"The heating of the earth, especially to the low temperature of 82 degrees, cannot have appreciably affected its chemical composition, and, indeed, the starting of a tree into growth is independent of nourishment supplied to it, as shown by the behavior of trees in sand, the only alteration produced in the soil by the heating must have been an alteration in the living organisms present in it.

But even in their present state they are sufficiently evident to warrant notification.

"That two out of the nine trees in sterilized soils showed very little retardation in activity is not surprising, as there were many opportunities for the re-inoculation of the soil, the pots containing the trees having been exposed in the open since February 1, and no attempt having been made to sterilize the trees themselves before

"That two out of the nine trees in sterilized soils showed very little retardation in activity is not surprising, as there were many opportunities for the re-inoculation of the soil, the pots containing the trees having been exposed in the open since February 1, and no attempt having been made to sterilize the trees themselves before

planting, though the roots were washed free from soil. The two exceptional trees were in earth which had been heated to the higher temperature; they were two out of six planted under these conditions. It may also be mentioned that heating to the lower temperature does not destroy all soil bacteria; indeed, it may increase the total bacterial contents. It is probably, therefore, a question of killing some particular bacteria which are connected with root activity." —Literary Digest

No Monopoly in Minnesota Fish.

More fish have been caught in Minnesota this year than in any other season for a long time. All of the fresh water lakes in the state have yielded up a remarkable supply of fish so far and quantities have been caught in the lakes tributary to the Twin Cities. This is the opinion of the wholesale dealers of fish in Minneapolis. They say that the catch at least 14 days later and one has not started yet. To quote further:

"That two out of the nine trees in sterilized soils showed very little retardation in activity is not surprising, as there were many opportunities for the re-inoculation of the soil, the pots containing the trees having been exposed in the open since February 1, and no attempt having been made to sterilize the trees themselves before

"That fisherman is always talking about the whoppers he caught." He doesn't catch them," answered Miss Caspary. "He merely tells them."
